

## 7<sup>th</sup> Annual Houska Challenge – 2015

Karen and her kids, Kaleb & Abby, pose with their new car

**Special thanks  
to**

For the seventh year in a row, one lucky Project Self-Sufficiency participant received a reliable car generously donated by Houska Automotive during the intermission at the Lagoon Summer Concert Series concert on August 6<sup>th</sup>. A huge crowd gathered to enjoy the music of Mama Lenny and The Remedy while enjoying a beautiful summer evening. Also recognized at the event were the 9 companies and organizations who took on the 2015 Houska Challenge. Their donations will provide support to Participants throughout the year through the PS-S Transportation Fund.

Karen Claybrook enrolled in PS-S in March of 2014 and is the single parent of a 6 year old son and 3 year old daughter. She has overcome many obstacles and is preparing to return to school this fall to work toward a paralegal certificate at Front Range Community College. Karen was selected by the Cars for Families committee based on needs, engagement and progress in the program to receive the donated 2002 Chrysler Sebring.

The Houska Challenge is a call to action by Houska Automotive encouraging auto-related businesses in the community to donate their services to Project Self-Sufficiency participants. Reliable transportation is a key aspect of self-sufficiency and helps Participants move toward their personal goals.

## Thank You 2015 Houska Challenge Participants
